

# Me Collectors Room, Berlin

*"The group is amazing! Really smart" artist Max Suedhus*

Grade 6 compared their high standards in art with those of famous artists when they were the students' age, with excellent gallery talks by Charlotte Esser and Charlotte von Thaden at Me Collectors Berlin for the current exhibitions 'Paperworlds'...

and 'Stanze/Rooms Works from the Sandretto Re Rebaudengo Collection', Max Suedhus

The gallery was very impressed with the level of knowledge, comprehension, intelligent questions and comments from the students.

In two workshops led by Max Suedhus, the classes made some beautiful prints on the theme of 'space', inspired by the exhibition. They used an etching technique (Radierung) by working into perspex with an etching-needle. They also got to use a printing-press!
